145 g per square meter

# WATER IS LIFE, SAVING IT IS A CHOICE

1. The players can be split into groups.
2. They begin on the **Start drop**, take turns to roll the die, and move their counter forward by the number of dots on the face of the die.
3. The spaces 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 13, 14, 16, 18, 20, 21, 22, 24, 25, 26, 27, 29 contain questions to answer correctly otherwise they go back to the space from which they have started.
4. If you land on spaces 7, 15, 23: miss a turn.
5. If you land on space 9 and you answer correctly: go up the river to space 19.
6. If you land on space 19: go down the river to space 9, without answering the question.
7. The space 17 doesn't contain any questions to answer.
8. If you land on space 28: go down the river to space 17.
9. You must land exactly on the **30 Globe** to win.
